

## **SERVICE REQUIREMENTS**

**⚠ WARNING!** *Read and understand the contents of this manual before attempting to service WL900 Water Treatment System. Failure to follow the instructions in this manual could result in death, serious personal injury, or severe property damage. Only trained and qualified technicians should attempt to install, maintain, or service Waterlogic Equipment.*

1. Visually inspect all electrical and water connections for signs of wear or damage.
2. Ensure there is adequate (minimum of 2") clearance around the **WL900 Water and Ice Machine** and clean the condenser grill and compressor fan to provide efficient cooling system operation.
3. Sanitize the cold tank, ambient tank, and ice-making area per instructions in the pre-installation procedures.

**⚠ WARNING!** **SANITIZER MAY CONTAIN HAZARDOUS CHEMICALS.** *Use of proper personal protective equipment such as rubber gloves and eye protection are required.*

4. Clean and sanitize external surfaces of the **WL900 Water and Ice Machine**. Use soap and water or chemicals that are compatible with ABS plastic and will not damage or degrade the product surfaces.
5. Remove and clean the Faucet on every service visit.
6. Change out filters every 6 months, or as needed.
